PROJECTS

ONLINE MARKETING 2025
Online Marketing Place is a full-stack web application for buying and selling second-hand items. Built using **React**, **HTML**, **CSS**, **Node.js**, and **Django**, it offers a responsive interface and robust backend logic. **MongoDB** stores product data, user profiles, transactions, and chat history. Key features include **authentication**, search and filter, **real-time chat**, order tracking, and **secure payments** via RESTful APIs.

SMART POULTRY FARMING ~ SMART POULTRY 2025
An **IoT** - enabled automation system for poultry farming that controls climate, feeding, and watering using sensors and relays. Real-time data triggers actions like turning on fans or notifying the farmer, ensuring optimal poultry growth with minimal manual intervention.

TRAVEL BLOG WEBSITE ~ TRAVEL-GUIDES 2025
Travel Blog Website is a fully responsive web app for exploring destinations and reading curated blog posts. Built with **React.js**, **Next.js**, and **Typescript**, it includes **secure authentication** and **dynamic routing**. The project uses **Git & GitHub** for version control and is deployed on **Vercel**.

INTERNSHIP EXPERIENCE

MERN Stack Intern @Better Tomorrow January-2025
Completed an internship at **Better Tomorrow Training Institute**, where I gained hands-on experience in **MongoDB**, **Express.js**, **ReactJS**, and **Node.js (MERN Stack)**. This internship enhanced my ability to develop full-stack web applications using MERN technologies.

Modern Full Stack Intern June 2025-July 2025
Developed and deployed a fully responsive **Travel Blog Web App** using **React.js**, **Next.js**, and **Typescript**. Implemented features like **user authentication**, dynamic routing, and version control with **Git & GitHub**. Deployed the application on **Vercel**, gaining hands-on experience with real-world debugging and deployment.
